

## Required documents/information for clinical trials, according to the Clinical Trials Ordinance, ClinO

### Remarks:

The document list on the upload screen/s in BASEC will be generated automatically depending on your entries on screens 1-3.

In BASEC you will find links to templates and further information under each document category on the upload-screens. (All templates are also available on [www.swissethics.ch/en/templates](http://www.swissethics.ch/en/templates))

Some information necessary for clinical trials combined with **further use studies** is already asked in the application form.

**Documents that have to be signed** are the following: protocol (item 4), contract(s)/letter of delegation (item 9, 38), insurance (item 10).

Other important documents not falling within these categories can be uploaded in the miscellaneous category "Varia".

**If you have questions that are not answered in the document or in the FAQ section in BASEC, please contact the competent ethics committee or swissethics.**

**R** = This document/information is required. In BASEC this is labelled with an asterisk < \* >

**A** = Mandatory if applicable (for example a contract between an investigational site and the sponsor is mandatory while the document is not requested in an investigator-initiated trial with no external sponsor or any other external collaborator). In BASEC this is labelled with an asterisk in parentheses < (\*) >.

## Required documents/information for local sites in multicentric studies.

Document number in BASEC		clinical trials
1	<b>Covering letter</b>	optional
2	<b>Synopsis of the study plan in English or local language</b> <i>If the synopsis/information about the synopsis provided on the main upload screen (screen 6) is neither in English nor in the language of the EC responsible for this additional site, please upload a separate version.</i> <i>Template (.docx) in DE, FR, IT, EN available at <a href="http://swissethics.ch">swissethics.ch</a>.</i>	A separate synopsis is not required for the submission of clinical trials (KlinV, OClin, OSRUm). A synopsis is generally already included in the protocol.
3	<b>Participant information sheet and informed consent (ICF)</b> <i>Template for drafting information for participants (.docx) in DE, FR, IT available at <a href="http://swissethics.ch">swissethics.ch</a></i>	adapted to the local site(s)
4	<b>Signed study plan or signature page of the study plan</b> <i>Signed study plan or signature page of the study plan or protocol, signed and dated by the local investigator. The signature page has to include the <u>title</u>, <u>version</u> and <u>date</u> of the study plan/protocol.</i> <i>Clinical Protocol Template for (.docx) in EN available at <a href="http://swissethics.ch">swissethics.ch</a></i>	signature page signed by local investigator
6	<b>Investigator's / Project Leader's CV</b> , dated	CV of the local principal investigator
7	<b>Local investigator's proof of GCP training</b>	of the local principal investigator
8	<b>Details on infrastructure suitability and availability at the location where the trial is executed</b>	optional
9	<b>Agreement between sponsor/commissioned institution and local investigator</b> <i>Draft acceptable provided the final document is available within the next 30 days (monocentric) or 45 days (multicentric).</i> <i>Document about trial financing, the allocation of tasks, the investigator's compensation and publication.</i> <i>Template (.docx) in EN available at <a href="http://swissethics.ch">swissethics.ch</a></i>	local document/s (upload of drafts is acceptable for the first submission)
